City Officials Hold Leadership Positions at National League of Cities

Flagstaff's presence is being felt at a national level. Three members of the City Council have been appointed to serve with the National League of Cities (NLC) organization.

Mayor Joseph Donaldson was recently appointed as the Vice-Chairman of the NLC Transportation and Advocacy Steering Committee. This 35-member committee's function is to identify national challenges to any form of transportation (Road, Air, Train and Ship) and to develop policy recommendations for the NLC's leadership to present before Congress. Mayor Donaldson represents the Committee before Congress as called upon, and assists the Chair of the Committee. Mayor Donaldson considers this position to be of tremendous benefit to the area, saying, "Rural Arizona will get the opportunity to help form National Transportation policy. I

am honored to represent our community at these discussions."

An honor was also recently bestowed upon Vice Mayor Libby Silva, having been appointed to the NLC Board of Directors—the governing body for the entire organization. Silva is also serving as the Second Vice President of the Hispanic Elected Officials (HELO). HELO provides guidance to the NLC Board and to its policy committees on major public policy issues affecting the Hispanic and Latino communities.

Councilmember Kara Kelly is currently serving on the Equity and Opportunity Panel for the Municipalities in Transition Program established by the NLC. The purpose of this panel is to serve as a resource for connecting public and policy discussions to the reality of what is occurring in America's cities.

Since its founding in 1924, the National

League of Cities has represented municipal governments throughout the United States. The oldest and largest organization of its kind, the League's aim is to strengthen and promote local government through research, information sharing, and speaking on behalf of hometown America in Washington D.C. and all state capitols.

City Part of Multi-Jurisdictional Hazard Mitigation Planning Project

The City of Flagstaff has joined Fredonia, the Navajo Nation, Page, Sedona and Williams in developing a multi-jurisdictional, all-hazard mitigation plan.

In October 2000, Congress passed the Disaster Mitigation Act of 2000, which requires all local, county and tribal governments to develop a hazard mitigation plan for their respective communities in order to be eligible to receive federal pre- and post-disaster mitigation assistance funds. Each community's hazard mitigation plan must be submitted and approved by the State of Arizona and FEMA. The deadline for obtaining approval is November 1, 2004.

To learn more about how the plan is being developed and how you can get involved or obtain more information please contact:
